UNCONDITIONAL 3-YEAR GUARANTEE*

YOUR PHONE HAS TO THRIVE UNDER CONDITIONS THAT WOULD ANNIHILATE ORDINARY HANDSETS.

Dirt, water, dust, sand, rain, heat, cold - whatever your life dishes out the XP1 can handle.

It's the only ruggedized GSM phone in Europe that's IP-54 certified and Mil Spec approved, engineered to thrive in the most demanding situations and backed up by an unconditional 3-year guarantee.

Drop it, toss it around, throw into a backseat, toolbox, backpack or duffle, leave it outside overnight – *the XP1 is built to work as hard as you do.* And we didn't skimp on the insides either. The XP1's shock-resistant rugged exterior houses super-reliable communications features that let you stay in touch no matter where you are or what you're doing, now and into the future. It's the only phone that doesn't ask you to compromise on form or function.

Why settle for anything less?

"The phone does not break…"

- International Herald Tribune, Feature Story

SONIM MOBILE – SETTING THE STANDARD

The XP1 is the *only GSM phone in Europe* that's IP-54 certified and Mil Spec approved, tested and proven to resist damage caused by environmental conditions. *(IP – the International Protection/Ingress Protection rating – is a global standard that classifies an electronic device's ability to withstand damage from water, dust and other factors.)*

> Ruggedized construction protects against damage from shock, drops, and rough treatment

> Unconditional 3 year guarantee on functions of the phone and lifetime warranty on the housing of the phone

> In-store, same day replacement policy

> High Output Audio so communications always come through loud and clear

> Tested and proven resistant to water, rain and dust. Works perfectly in very cold (-20 C) and very hot temperatures (+60 C)

> Scratch resistant, bright display screen designed for easy readability in both sunny/bright and dim conditions

> Text Messaging, Pager, and "Push-To-Talk" Supported

**NO QUESTIONS ASKED*

> Headset > Plug-in External Antenna
> Wall Charger > Belt Clip

"The Sonim XP1 is as close to indestructible as you get with cell phones"

- ***Coolest Gadget.com,*** Review

XP1 – From Sonim

WWW.TOUGHESTPHONE.COM

sonim®

The XP1 – A mobile handset with advanced features and functionality that's built to serve the most demanding users' real-world needs now and into the future.

But the XP1 is far more than a simple container for communications service. Sonim Mobile is setting the new standard for ruggedized phones. The XP1 handset was ***built for people who use their mobile phones as tools, not fashion accessories***. It's engineered to be equally at home in a factory or forest, a construction site or a mountain, on a boat in the middle of the ocean or a dry, sweltering desert. The XP1 was created to suit people who value solidly constructed tools that are built to last rather than disposable devices.

SONIM XP1 – THERE IS NO COMPARISON

Competitive Comparison – Ruggedized Handsets
